

## Listen to Wally and clean up your act

THE Times congratulates Waldemar Katze — better known as Wally — on his decision to televise his heart operation on Saturday night.

He did so to draw attention to the causes of cardiovascular disease.

Wally, who smoked and drank excessively, and did not exercise, was recovering well yesterday at Johannesburg's Milpark Hospital.

His decision to allow cameras into the operating theatre has raised public awareness of heart disease and has united the nation in supporting him.

We wish him a speedy recovery and call on readers to heed his dramatic call to lead a healthy lifestyle.
